McCORMACKS AUSTRALIA EST 2001

TERRA LANA

TERRA LANA WOOL INSULATION

Proudly supplied in Australia by McCormack's, Terra Lana delivers innovative wool insulation and landscaping products designed for healthier spaces and a more sustainable future.

CEILING INSULATION

Terra Lana ceiling insulation is a natural wool insulation designed for reliable thermal performance in both new builds and retrofit applications. Made from locally sourced New Zealand wool, it performs in real-world conditions by absorbing and releasing moisture, helping regulate humidity without compromising insulation performance.

WALL INSULATION

Terra Lana wall insulation is designed for use in external and internal wall systems across residential and commercial builds. Its dense structure helps maintain performance over time while also delivering strong acoustic benefits, making it ideal for internal wall applications.

KEY BENEFITS

NATURALLY ABSORBS & RELEASES MOISTURE

PERFORMS IN REAL-WORLD CONDITIONS

REDUCES SOUND TRANSFER IN WALLS

SAFE TO HANDLE, NO HARMFUL CHEMICALS

MADE FROM NZ WOOL WITH RECYCLED CONTENT

BACKED BY A 50 YEAR WARRANTY
